

DECOMMISSIONING

Working with our clients to maximize efficiency, safety and cost-savings, Vertex completes decommissioning work in conjunction with remediation projects to remove infrastructure while remediating soil and groundwater impacts. Completing decommissioning work at the time of remediation decreases costs and creates an efficient transition to reclamation work.

Services

- Completion of Ground Disturbance Requirements
- Removal of Buried Infrastructure
- Remediation of Soil & Groundwater Impacts
- Waste Management & Disposal
- Asbestos Assessment, Air Monitoring & Inspections
- Asset Recovery
