

# PIPELINE

## Canada Office Locations In:

- Alberta
- British Columbia
- Saskatchewan
- Manitoba

Vertex looks after the stakeholder engagement process and intricate regulatory compliance requirements, as well as negotiation of right-of-way agreements for pipelines across multiple jurisdictions. We understand the unique challenges associated with pipeline facilities that span provinces and, as such, the need to be compliant with federal and provincial regulations.

From land services, environmental consulting to Geographic Information Systems (GIS), and First Nations and public consultation, Vertex takes a collaborative approach to your pipeline project. This approach ensures your project remains on time and on budget while maintaining positive relationships with all stakeholders.
