

WASTE MANAGEMENT

Vertex provides a single source for all your waste management needs. Our Calmar facility is set up to recycle as much of the waste as possible with cardboard, paper and plastics being baled on-site and then sent to a recycling facility. We strive to always provide safe and cost effective solutions, which is why we have designed our waste management bins to be both safe and functional. Our unique bin designs include side doors that allow for proper sorting and completely eliminate the need for any steps or catwalks.

Our comprehensive and in-depth tracking system ensures that all the waste we handle is dealt with in a proper manner. For each of our valued clients, we create a customized report that summarizes your waste profile by rig and location and includes copies of the EUB waste manifests.
