VERSATILITY. EXPERTISE.

With these two words, Vertex makes the promise that we will always be versatile in developing solutions to our clients' unique needs and that we will always demonstrate expertise in our designated fields. We encourage our employees to think and develop the best solutions for our clients. If you think you have what it takes to play for the Vertex team, please apply.

Established in 1976, Vertex is a leading North American provider of environmental and industrial services. With over 40 years of expertise, Vertex helps clients achieve their development goals through our versatile suite of services. From the initial site selection, consultation and regulatory approval, through the construction, operation and maintenance phases, to conclusion and environmental cleanup, Vertex offers a diverse range of services throughout the life cycle of our clients' projects.

With a track record of success, Vertex provides an environment where people thrive. We recognize that each member brings a valuable skillset to the Vertex team. We make health, safety and community well-being a priority by supporting numerous endeavors at each of our locations across North America.

Vertex offers a fast-paced environment where priorities shift from day to day, but the expertise of our team allows these changes to occur smoothly. At Vertex, we value teamwork through collaboration within each division or office and provide support across the entire organization.

OVERVIEW

Vertex is currently accepting applications for an Environmental Field Technician on a contract basis. The successful candidate must be experienced with field work, report writing, client communication and project coordination. The Environmental Field Technician will assist our environmental team lead in conducting environmental projects primarily within the oil and gas industry across North America.

CANDIDATE QUALIFICATIONS

- Three to five years of experience in environmental consulting industry.
- Undergraduate degree specializing in Environmental Sciences, Geological Sciences, Biology or similar discipline
- Professional designation an asset.
- Experience working in field and office environments required
- Environmental experience within the Oil and Gas, Energy, and Infrastructure industries essential
- Experience within Texas, Oklahoma, New Mexico, North Dakota, South Dakota, Missouri, Arkansas, and Kansas are considered an asset

RESPONSIBILITIES

- Provide technical field support on environmental projects within the oil and gas industry of the United States and Canada. Project types include but are not limited to:

- Environmental Planning & Permitting
- Environmental Monitoring & Inspection
- Environmental Assessments (Phase I, II and Remediation)
- Reclamation
- Water Well & Groundwater assessments
- Regulatory submissions
- Drilling Services (Drilling Waste & Well Abandonment)
- Air Services
- Responsible for client communication, on project deliverables and scope development
- Responsible to work with the business development team to deliver on client projects, develop areas for new business and recruit personnel
- Responsible for project coordination, cost control and project scoping to ensure effectively versatile solutions are developed to meet client's regulatory needs and budgets;
- Responsible for both field and office execution of environmental projects with an emphasis on field work
- Responsible to build both internal and external relationships within Vertex, with regulators and clients to effectively develop and manage projects within the environmental business unit.

LOCATION

- This position may work out of varying locations including Watford City, North Dakota and will require travel.

ADDITIONAL INFORMATION

- Compensation is commensurate with education and experience
