

VERSATILITY. EXPERTISE.

With these two words, Vertex makes the promise that we will always be versatile in developing solutions to our clients' unique needs and that we will always demonstrate expertise in our designated fields. We encourage our employees to think and develop the best solutions for our clients. If you think you have what it takes to play for the Vertex team, please apply.

Established in 1976, Vertex is a leading North American provider of environmental and industrial services. With over 40 years of expertise, Vertex helps clients achieve their development goals through our versatile suite of services. From the initial site selection, consultation and regulatory approval, through the construction, operation and maintenance phases, to conclusion and environmental cleanup, Vertex offers a diverse range of services throughout the life cycle of our clients' projects.

With a track record of success, Vertex provides an environment where people thrive. We recognize that each member brings a valuable skillset to the Vertex team. We make health, safety and community well-being a priority by supporting numerous endeavors at each of our locations across North America.

Vertex offers a fast-paced environment where priorities shift from day to day, but the expertise of our team allows these changes to occur smoothly. At Vertex, we value teamwork through collaboration within each division or office and provide support across the entire organization.

OVERVIEW

Vertex is currently accepting applications for one full-time, permanent **Intermediate Environmental Scientist** for our Liability Management team. The successful candidate will be responsible for managing upstream oil and gas and industrial projects in accordance within Vertex guidelines and project scopes. This role will have a heavy focus on reclamation projects. This individual will play a critical role in the execution of all aspects of the project while delivering a cost effective approach that exceeds our client's expectations.

CANDIDATE QUALIFICATIONS

- Diploma or higher education related to civil or environmental engineering or other related discipline, with a professional designation
- Minimum 5 years of environmental work experience with extensive reclamation experience in:
 - Detailed site assessments
 - Soil salvage and reclamation monitoring
 - Soil and vegetation assessments
- Project management experience is an asset
- Experience in managing upstream environmental assessment and remediation projects
- Strong leadership skills within a multidisciplinary team environment
- Experience with alternative remediation and risk assessment strategies
- Experience working with multiple regulatory agencies in Western Canada

- Experience managing relationships with municipalities, First Nation communities, and other government entities
- A member in good standing of an applicable professional association
- Willingness to work in the field for extended periods of time; willingness to travel within Western Canada as required
- Excellent communication and technical reporting skills
- Strong time management and organizational skills

RESPONSIBILITIES

- Develop and manage project-specific budgets in alignment with the project's unique scope and strategy
- Plan, organize, schedule and coordinate all assigned project activities, including mobilization, demobilization, manpower requirements, scheduling of equipment, materials and facilities to ensure work is executed efficiently and effectively
- Mentor and support junior and intermediate technical staff
- Implement and promote Vertex's and our client's safety programs
- Develop and assist with the execution of marketing plans to explore new business opportunities, while managing current clients, to ensure profitability, increase market share, growth and expansion of the Vertex environmental group
- Provide regular updates to management as it relates to project performance activities, schedules and other business conditions/issues
- Conduct regular site visits and review meetings

LOCATION

- This position will be based out of our Calgary location.

ADDITIONAL INFORMATION

- Compensation is commensurate with education and experience
- A comprehensive benefit package is provided
