

## VERSATILITY. EXPERTISE.

With these two words, Vertex makes the promise that we will always be versatile in developing solutions to our clients' unique needs and that we will always demonstrate expertise in our designated fields. We encourage our employees to think and develop the best solutions for our clients. If you think you have what it takes to play for the Vertex team, please apply.

Established in 1976, Vertex is a leading North American provider of environmental and industrial services. With over 40 years of expertise, Vertex helps clients achieve their development goals through our versatile suite of services. From the initial site selection, consultation and regulatory approval, through the construction, operation and maintenance phases, to conclusion and environmental cleanup, Vertex offers a diverse range of services throughout the life cycle of our clients' projects.

With a track record of success, Vertex provides an environment where people thrive. We recognize that each member brings a valuable skillset to the Vertex team. We make health, safety and community well-being a priority by supporting numerous endeavors at each of our locations across North America.

Vertex offers a fast-paced environment where priorities shift from day to day, but the expertise of our team allows these changes to occur smoothly. At Vertex, we value teamwork through collaboration within each division or office and provide support across the entire organization.

## OVERVIEW

Vertex is currently accepting applications for multiple, project based, Industrial **Primary Care Paramedic's (PCP)**. The PCP will adhere to OH&S legislation and professional association protocols in line with the industry best practices. The successful candidate is required to maintain technical expertise, including knowledge of local systems, standards, policies and procedures. The PCP will provide advanced medical rescue service delivery to Vertex customers working in semi-remote settings. The successful candidates will support the delivery of the highest quality of basic and advanced life support, medical rescue assessment and treatment. Candidates require previous industrial medical experience. Successful candidates must have valid professional registration and be in good standing with the applicable licensing board. The successful candidates must hold a valid Class 4 driver's license and must have the ability to drive a Medical Treatment Centre (MTC). Candidates with registration in multiple jurisdictions and candidates whom have safety related work experience are encouraged to apply.
