

EMERGENCY SPILL RESPONSE

August 2013

September 2013

With office locations across North America and a company owned and maintained fleet of vacuum, hydro-vac and steam trucks, Vertex is capable of responding to spills with the right equipment in a timely manner. Having the ability to mobilize quickly allows us to provide efficient and effective spill cleanup, resulting in reduced environmental impacts that save our clients from additional financial liabilities.

Vertex's professional environmental team is experienced in the regulatory reporting process to ensure that compliance is maintained and that the spill is dealt with in a safe and effective manner.
