

FLUID HAULING

Available for use on drilling rig sites, compaction projects, and completion and frac operations, Vertex's fleet of fluid hauling tanker trucks are capable of hauling virtually any fluid you require to be delivered or removed from your work site.

Well versed with hauling crude, frac water, emulsion, chemicals and fuel, Vertex also has the capability to transport sour and pressurized loads with specialized fluid hauling units.

Fleet of Tanker Trucks Include

- Fiber Glass - Tri-Quad
- Fiber Glass - Tri-Tri Straight
- Super B
- Body Jobs
- Stainless Steel - Tri-Quad
- Stainless Steel Tanker Trailers
- Sour Sealed Units
