

# WILDLIFE SERVICES

With a skilled team of environmental professionals, Vertex guides clients through the wildlife regulatory process while ensuring project goals and regulatory requirements are met. Our team works hard to ensure the safety of wildlife, their habitats and your team while operating within wildlife inhabited areas.

Vertex has extensive experience in the use of tools to provide cost and time-efficient wildlife services. With developed relationships with leaders in industry, researchers and government to ensure communication is open and transparent, Vertex ensures the latest and most relevant information is applied.
