

# RENTALS

At Vertex, we know that any of the rental equipment we offer can be critical to the smooth running of your operations. This is why we possess a large fleet of well maintained equipment that is readily available for rent and offer a reliable maintenance program. This program ensures that we find and fix any issues that may arise while our equipment is on your site. This program not only aids in creating an efficient work site, but it also helps to ensure the safety of your team while using any of our equipment.

With a timely and reliable delivery service offering, Vertex can minimize transportation and logistic costs while ensuring all rented equipment is set up properly.

Vertex proudly provides rentals for a wide array of industries including oil and gas, pipeline, power transmission, mining, construction and municipal projects.
