

WIND

Canada Office Locations In:

- Alberta
- British Columbia
- Saskatchewan
- Manitoba

With specialized market knowledge in the wind energy industry, Vertex is capable of acquiring wind options and meteorological (MET) tower agreements, final surface leases and access agreements while ensuring regulatory compliance.

As with other aspects of wind farm development, Vertex's land team understands the growing need for professionals with experience in this industry. This is why we stay up to date with the evolving and increasing standards for land agreements and regulatory requirements. Vertex's project managers, land agents, environmental consultants and administrators have worked on large infrastructure projects of every kind and have ensured the successful completion on budget and on schedule.
